EFSLE (Ecosophical Foundation for the Study of Literature and Environment) is a Non-profit Organization and an International Open Academic Forum for creative interaction among intellectuals, academicians, environmental activists, naturalists, nature-lovers, and those involved and earnestly dedicated to these issues and who are receptive and undogmatic to one another's individuality and their standpoints. It intends to amalgamate two relevant issues Gender and Human Rights with Literature and Environment primarily initiated by Dr. Rishikesh Kumar Singh what he calls it the **LEGH Movement** (Literature, Environment, Gender and Human Rights) - **A Socio-Ecoliterary Movement**. This is the first venture of its kind where all the four issues are juxtaposed together. This specialty makes this movement relevant.

Though 'Environment and Literature' is our core concern however, this environment prominently includes the human environment too, where we care for the most vulnerable sections of the society. It includes empowering women, children care towards their holistic development and sustainable livelihood for all the deprived sections of the society. Within these major fields of our core concerned objectives, with the cooperation of our various sister concerns, we have initiated to work for the underprivileged children and women from urban and rural areas of India and strived to provide equal opportunities and solutions for education, skill training and income generation that are environment and eco-friendly and that also transcend race, religion, caste and creed.

Amalgamating all these fields of studies this organization tends to be the world's largest platform of its kind. Interdisciplinary and Multi-disciplinary aspects are its bases. ***We have our Executive Councils in all the Twenty-eight (28) Indian states and Eight (8) Union Territories.
